Focused on building robust web applications with a strong emphasis on the Angular ecosystem. My experience includes a Frontend Internship at CBsystematics Development, where I contributed to a CRM system integrated with Azure infrastructure.
Proficient in TypeScript and Angular (v16+), with practical experience in React. I also have a functional understanding of Node.js and MySQL, enabling effective collaboration on full-stack integration. Currently advancing my expertise in the latest Angular (v20/21) features through RS School.
I prioritize clean architecture and scalable solutions, always looking for complex technical challenges to solve.

Hard Skills
